Key Message

Dear Sir/Madam,

Cordial greetings from Sree Narayana Institute of Medical Sciences, Ernakulam.

With great pleasure we invite you to attend the CME on “**Health Economics**” to be held on 12th October 2019. This CME is organized by the Department of Community Medicine, SNIMS, Ernakulam.

As medical professionals, we make umpteen decisions concerning the health of the patients entrusted to us on a day-to-day basis. Many of these decisions involve costs, both direct and indirect. A prudent allocation of available resources using sound economic principles would go a long way to maximize the efficiency of the health care delivery system and this would also reduce the burden of cost of healthcare to the patient. Research and studies in the field of health economics facilitates the formulation of public policy that befits region specific health concerns.

It is our hope that this CME programme will be beneficial both to the care giver and the receiver.

With best Wishes,

Organizing Chairperson

Dr. Alexander John
Professor & Head, CM

Organizing Secretary

Dr. Anuradha K
Assistant Professor, CM
